SHOBRINA NAILA
Bandung, West Java, Indonesia | +62 897 9815 637 | shobrinailaf@gmail.com

SUMMARY

Informatics Engineering graduate (GPA 3.6/4.0) with experience across web development, website operations, data management, and data analysis. Experienced in developing responsive web interfaces, implementing UI/UX designs, integrating frontend and backend systems, and managing structured data. Familiar with JavaScript, PHP, React, Laravel, Python, SQL, and data analysis tools, with additional experience in machine learning and natural language processing through academic research and projects.

EDUCATION

Universitas Komputer Indonesia — Bachelor of Informatics Engineering | 2022–2026
SMKS Telkom Bandung — Computer and Network Engineering | 2018–2021

EXPERIENCE

PT Dirgantara Indonesia — Frontend Developer | Sep 2025–Dec 2025

- Developed and implemented user interfaces for the company's Dynamic Skill Matrix website for employee competency management.
- Translated UI/UX designs into responsive and interactive web interfaces.
- Implemented frontend components and page structures according to functional and visual requirements.
- Integrated frontend components with backend systems and performed debugging, testing, and feature maintenance.
- Contributed to a web-based system for mapping, managing, and monitoring employee competencies.

Tim Tabulasi DPC Baleendah — Data Entry Admin | Feb 2024

- Entered and verified vote-counting data accurately and systematically.
- Performed repeated data checks to minimize recording errors and maintain data quality.
- Worked with structured data under time-sensitive deadlines while maintaining information confidentiality.

TOP ARMY — Website Operator | Oct 2020–Dec 2020

- Managed and updated website content, product catalogs, descriptions, and images.
- Maintained website layouts and performed regular checks of website content and display.
- Conducted basic website maintenance and ensured product information remained accurate and up to date.

SELECTED PROJECTS

Dynamic Matrix Skill — Employee Competency Management System

- Developed a web-based system for mapping, managing, and monitoring employee competencies.
- Contributed to frontend development using Laravel, JavaScript, and Tailwind CSS.

Foodidie — Recipe and Food Information Platform

- Developed a web-based platform for discovering recipes and food-related information, including ingredients, cooking instructions, and nutritional information.
- Implemented application interfaces and functionality using Laravel, and React.

IKD App Review Topic Modeling — Machine Learning Research (Thesis)

- Conducted a comparative analysis of NMF and BERTopic for topic modeling of 10,000 Indonesian Identity Card (IKD) application reviews.
- Applied text preprocessing and topic modeling techniques and evaluated generated topics using Topic Coherence and Topic Diversity.

TECHNICAL SKILLS

Programming: Python, JavaScript, PHP, Dart, Java, HTML, CSS
Web: React, Laravel, Next.js, Tailwind CSS, Responsive Web Design, REST API, CRUD, API Integration
Data & ML: Pandas, NumPy, Data Cleaning, Data Analysis, Data Visualization, Topic Modeling, NLP
Databases: MySQL, PostgreSQL
Tools: Git, GitHub, VS Code, Google Colab, Figma, Microsoft Office

CERTIFICATIONS

Data Analyst Certification — BNSP | **TOEFL** — 527 | **CCNA: Introduction to Networks** — Cisco
